3. benefits to local authorities

identity enabled fraud reduction

fraud costs local government £2.1bn a year
60% of all online fraud is identity enabled

GOV.UK Verify prevents
1) identity enabled fraud
2) the theft of personal data

business transformation

£8.62 offline transaction vs 15p online
£100m p/a – automatic access to DVLA data
£97m p/a – to land registry data

GOV.UK Verify enables attribute exchange - the automation of manual processes

user experience

time saving - 15mins. once.
service access not location dependent
enables fully digital service

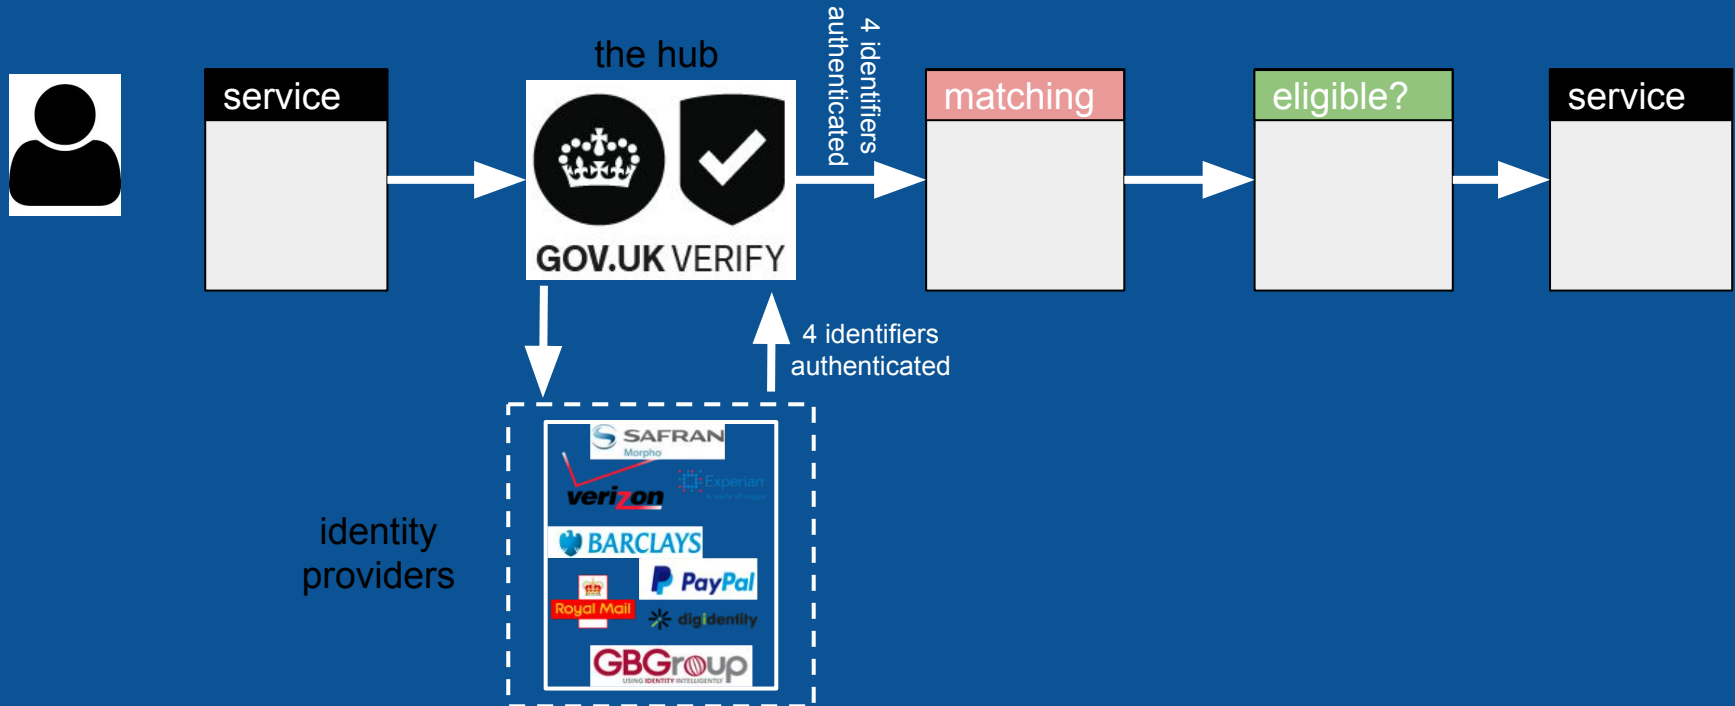

GOV.UK Verify allows someone to prove their identity once to government

privacy

built to privacy and consumer advisory group principles
built-in data minimisation

GOV.UK Verify works with privacy campaigners to ensure user privacy is maintained

4. technical architecture

Break!

Agenda: 2nd half

1. digital transformation plans
2. readiness to adopt GOV.UK Verify
3. wrap up

1. digital transformation plans

	User input	Processing	Examples
face to face	verbal answers and docs scanned	manual submission to CRM	apply for your first passport
post	form and docs posted	manual submission to CRM	apply for a driving licence
telephony	verbal answers	manual submission to CRM	pay council tax
eForm printed out	eForm submitted	manual submission to CRM	?
eForm + CRM	eForm submitted	automated CRM but likely manual eligibility checks	primary school places
online service portal	one transaction account creation to manage transactions	automated CRM with manual/automated eligibility checks	View Driving Licence
digital user account	ongoing account created to manage transactions	largely/wholly automated	Personal Tax Account

1. digital transformation plans

digital team

task:

digital service design

digital service build

capability:

internal team

external team already in the team

external team to be procured

skills:

developers

web operations

delivery managers

user researchers

architects

content designers

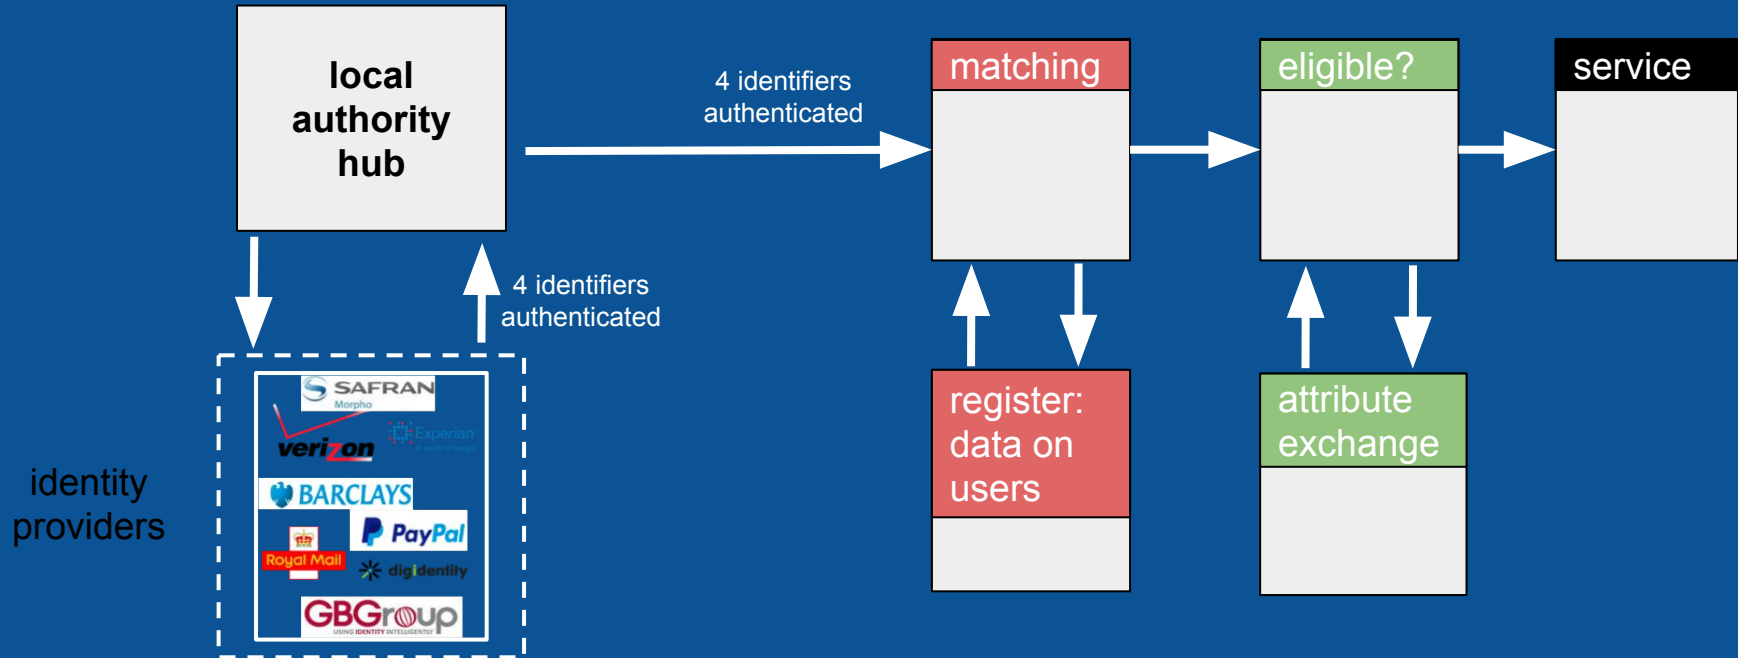

business analysts

service managers

2. readiness to adopt GOV.UK Verify

LOA	reason	type of transaction	example
0	no assurance needed	single session form	paying a parking ticket
1	need to know it is the same user not who the user is	save and return to a form	filing a court claim
2	need to know the user is who they say they are	when exposing personal data or making a payment	self assessment tax return
3	need to know beyond reasonable doubt who the user is	changing or viewing very sensitive data	enhanced checks for disclosure and barring
4	identity assurance through biometric info	visits	visits to a high security prison

2. readiness to adopt GOV.UK Verify

wrap up
