# PARTNERSHIP – recognising that cyber resilience is about building strong partnerships both within and across organisational boundaries

DESIGN PRINCIPLES

- **Join the Cyber Security Information Sharing Partnership**
- **Work with WARPS and Local Resilience Forums**
- **Adopt boundary spanning approaches and learning across other sectors**
- **Develop and share "what works" Case Studies**

Think Cyber Think Resilience

PARTNERSHIP		
DOCUMENTATION		
Name	**Link**	Description
Cyber-security Information Sharing Partnership (CiSP)	Here	The Cyber-security Information Sharing Partnership (CiSP), part of CERT-UK, is a joint industry government initiative to share cyber threat and vulnerability information in order to increase overall situational awareness of the cyber threat and therefore reduce the impact on UK business.
NLAWARP	Here	The NLAWARP serves to encourage the development of multiple, regional Local Authority WARPs and to provide a centralised online services, to reduce the burden on individual WARPs.
Bank of England launches new framework to test for cyber vulnerabilities	Here	In a speech today at the British Bankers' Association, Andrew Gracie, Executive Director, Resolution at the Bank of England, formally launched a new framework to help identify areas where the financial sector could be vulnerable to sophisticated cyber-attack.
Cyber resilience: a financial stability perspective	Here	Speech given by Andrew Gracie, Executive Director, Resolution, Bank of England
CBEST Vulnerability Testing Framework Launch	Here	To assist the boards of financial firms and infrastructure providers, and regulators, in improving their understanding of the types of cyber attack that could undermine financial stability in the UK, and the extent to which the UK financial sector is vulnerable to those attacks, a new, intelligence-led testing framework has been devised by the UK Financial Authorities in conjunction with CREST (the Council for Registered Ethical Security Testers) and Digital Shadows.
Gloucestershire Safer Cyber Forum (GSCF)	Here	Gloucestershire Safer Cyber Forum (GSCF) has been designed to provide a source of crime prevention, advice and to share cyber threat information. Free at point of access, GSCF also provides a secure environment for Gloucestershire business to engage directly with peers and Gloucestershire Constabulary on incidents or concerns around cybercrime, along with the ability to report it anonymously. This platform is provided for and driven by the community.
