

**RISK MANAGEMENT –understanding the organisational risk appetite so as to help manage the risks and consequences of a cyber-attack and understand how organisations need to plan as to how to recover from an major incident**

#### DESIGN PRINCIPLES

- **Understand how risk assessment processes can help**
- **Learn how to define your organisation's risk appetite**
- **Identify the Cyber risk management issues for your locality**
- **Understand how to tackle Cyber Risks and reduce their impact**

**Think Cyber Think Resilience**

<b>Risk Management</b>		
<b>DOCUMENTATION</b>		
<b>Name</b>	<b>Link</b>	<b>Description</b>
<b>National Risk Register</b>	<a href="#"><u>Here</u></a>	The National Risk Register (2015 edition) provides a government assessment of the likelihood and potential impact of civil emergency risks.
<b>CESG - Risk Management Collection</b>	<a href="#"><u>Here</u></a>	CESG - Risk Management Collection: How to assess and make business decisions about technology and information risks.
<b>Cyber-security risks in the supply chain</b>	<a href="#"><u>Here</u></a>	For any modern organisation, physical supply chain management already presents numerous complex challenges in understanding exposure to risk. The added complexity of cyber-security risks only amplifies this, regardless of their position within a supply chain. This paper provides an introduction to cyber-security risks within the supply chain, drawing on recent examples to highlight the benefits of an inclusive approach. It concludes with non-technical mitigation advice and points the reader to international standards for information security and management
<b>IRM: Cyber Risk Executive Summary</b>	<a href="#"><u>Here</u></a>	Summarises the work undertaken by IRM's Risk in Information Systems and E-business (RISE) special interest group (SIG). about risk management in the context of cyber risk, which we think is breaking new ground. There is also a longer companion document – Cyber Risk – Resources for Practitioners – which covers the detailed thinking behind the high level guidance and also offers practical tools and insight into the subject areas.
<b>Risk assessment: how the risk of emergencies in the UK is assessed</b>	<a href="#"><u>Here</u></a>	How the level of risk posed to the UK is assessed nationally and locally, covering the National Risk Assessment and National Risk Register.
